The plaintiffs allege that they were driving about four miles from the city when Stiles and Madeline Palmer, one of the West Court street houses, wilfully drove into their buggy.

They ask in separate petitions for \$1,000 against Stiles.

The jury in the case against J. W. Perkins, charged with grand larceny, last night decided the case, giving him one year in the penitentiary.

## BROWN AND BRUNER.

Celebrated Illinois Bank Case Concluded in the Supreme Court at Springfield Yesterday.

The Venerable Bankers at Metropolis at Last Free, After a Hard-Fought Battle. Lightfoot's Victory.

The celebrated case of Brown and Bruner, the erstwhile Metropolis bankers, was finally settled in the supreme court of Illinois at Springfield yesterday, by the court declaring the law under which they were prosecuted to be unconstitutional. The case had been in the courts for some time, and was of no little interest to the people of Southern Illinois.

The defendants are among the most prominent citizens of Metropolis, and had a hard battle there. Their bank failed, and they were arrested for embezzlement. The case was taken from the circuit court of Illinois to that of Williamson county, and tried at Marion. It was argued there, and the jury brought in a verdict, after being out for a day and a half, adjudging the defendants guilty, and sentencing them to one year in the state penitentiary, in addition to imposing a fine of \$500 each.

The defense claimed the law was unconstitutional because it was unreasonable, as well as discriminating. The law is, that if a banker receives money on deposit within 30 days of its failure, he shall be deemed guilty of a felony.

It is this sometimes very unjust, as a man's intentions may be good. It is said that the intentions in the above named case were good, but a loan expected on the eve of the failure, was denied them.

Another thing that made the case look quite bad was the fact that Mrs. Bruner, wife of one of the bankers, had a lot of property recorded soon after the bank failure. The truth was, however, that she had always owned the property, and was simply indiscreet enough to have it recorded at that unpropitious time.

It is further said that the defendants, who had always had the esteem and confidence of their fellow citizens, gave up what little they had to pay out. Mrs. Bruner did not give up any of her property, however, which may have occasioned some little comment.

Attorney H. T. Lightfoot, of the city, was attorney for the defense, and has won a victory of which he may well feel proud. His clients were yesterday ordered discharged from custody, but they had never been incarcerated. This decision knocks out the Southern Illinois bank law.

## UTMOST RETICENCE.

Madrid, April 20.—Marshal Lopez Dominguez, in an interview, is quoted as expressing confidence in the Cubans joining the Spaniards against the American forces.

Minister of Marine Admiral Bermejo and Admirals Berango and Butler declared the Spanish people can thoroughly rely on the bravery of the Spanish fleets.

The senators and deputies in the lobby of parliament talked most determinedly, and declared the demands of the United States would be energetically rejected, and that all the war credits would be voted without demur, the chambers sitting all night long if necessary.

The utmost reticence is observed now regarding the movements of the Spanish warships, and in official circles here it is said that the location of the first naval battle will be a veritable surprise.

St. Vincent, Cape Verde Islands, April 21.—The Spanish fleet now in the harbor consists of the Viscaya and Oquendo, from Porto Rico; three torpedo boat destroyers, Pluton, Terror and Furor; three torpedo boats, Rayo, Arrete and Azor; the battleships Infanta Maria Teresa and Cristobal Colon and two transports, Ciudad de Cadiz and San Francisco.

The last named vessel arrived Monday with a cargo of coal, which is being distributed among the fighting ships today.

The Spaniards think this fleet is quite a match for the American flying squadron. News from Cadiz says the following vessels are concentrating there:

The battleship Pelayo, cruisers Emperador, Carlos V., Cardinal Cisneros, Numancia, Victoria, Princesa Mercedes, Alfonso XIII., Decimotercio Maria and Marquis de Molina, three torpedo destroyers and three torpedo boats. A strong force of marines has been distributed among the fleets, including three battalions which have just returned from hard service in the Philippine Islands.
